CLASSIFY

HOW AND WHY WE CLASSIFY?

-
- Within cultures, there are different styles of organizing “social domains” that can be rigid.
 - Religion - “**sacred**” versus “**profane.**”
 - Bureaucracy - “**official**” versus “**personal.**”
 - Social domains that are “**fuzzy**”
 - Art, play (humor), intimacy.
 - What makes something funny? Goes against our shared categories.
 - Our globalized, modern world seemingly promotes “fuzzy-minded” view of the world.
 - This also varies across “**sub-cultures.**” Think about how music, styles have evolved over the past 15 years.

HOW AND WHY WE CLASSIFY?

A hand holds a blue rectangular sign with rounded corners. The sign features four white icons in a row: a female figure, two male figures, and a person in a wheelchair. Below the icons, the words "GENDER NEUTRAL" are written in white capital letters. At the bottom of the sign, there is a small row of Braille dots.
