

Role

- **Role distance** deals with the degree to which individuals separate themselves from the roles they are in.
- For example, if older children ride on a merry-go-round, they are likely to be aware that they are really too old to enjoy such an experience, so they cope by doing, for example, dangerous stunts.

The background of the slide is a dark blue, high-contrast image of ocean waves. The waves are moving from the top left towards the bottom right, creating a sense of motion and depth. The lighting highlights the crests of the waves, giving them a textured appearance.
