other

- 
- Analyze the web of unequal relationships set up by **political technologies** that undercut equality.
 - To define how the lines between **same** and **other** are drawn in history.
 - The **same** is the known, familiar, or ordered.
 - The **other** is something that lies outside and defines the limits of the known, exterior and foreign.

Power, Science, and Knowledge

- **Power** and **knowledge** directly imply one another.
- **Knowledge** is the effect of a specific regime of **power** (e.g., medical knowledge as power over the body).
- **Power** is neither good nor bad, and it is not possessed, it is exercised.
