

# ● Settled

- It's harder to see culture's role in action

- ideologies

more patterns of action

# SETTLED LIVES

- Settled Lives: Culture and action have very different causal connections.
- It's harder to see culture's role in action, especially since the gaps between norms and values and actions are much greater.
- Because ideologies are not battling for supremacy as in unsettled times, more patterns of action are allowed to flourish.
