

# System

money

power

# The colonization of lifeworld by systems

- **System** refers to common patterns of strategic action (i.e., highly rationalized) that serve the interests of institutions and organizations.
- System actions are driven by **money** and **power**, which is used to manipulate individuals to achieve the system's aims.
- System are **quantitative**, as money and power (votes) can be counted, and whoever has the most wins.
