CONSTRUCTIVISTS

- A newer set of theories emerging from the Cold War era called **constructivism** focuses on the **impact** of ideas more than material factors like trade and power. In other words, for constructivists, the international system is **socially constructed**.
- The **world** is anarchic because we say it is.
- **Constructivists** consider identity politics "the central issue in the post-Cold War world."

CHAPTER THIRD.

THE TRINITY IN MAN.

FROM the material sun in the sunbeam to the central sun of our universe, every object displays a threefold nature. The far reaching analysis of modern science and the profound research of his-

The background is a dark, textured field filled with a complex network of thin, light-blue lines. These lines connect numerous small, semi-transparent blue circles and dots of varying sizes. The overall effect is a dense, interconnected web that resembles a digital or biological network. The lines and nodes are more concentrated in the center, creating a bright, hazy focal point, and become sparser towards the edges.
