

multiple identities

# Affiliations

- The more groups we belong to, the more defined our individual personality.
- This is primarily due to the unique combination of **multiple identities** we each embody through the groups with which we associate.
- While these identities can come into conflict, they can also reinforce each other.

A low-angle, upward-looking photograph of several modern skyscrapers. The buildings are constructed with glass and steel, featuring a grid-like pattern of windows. The perspective creates a sense of height and scale, with the buildings converging towards the top of the frame. The sky is a pale, overcast blue with some light, wispy clouds. The overall tone is professional and architectural.
