MATRIX OF DOMINATION

- Collins gives the example of white women, who both enjoy the privilege of whiteness and suffer the oppression of gender discrimination.
- If we **only** see white women as privileged or oppressed, we miss out on a lot of the truth about the ways in which white supremacy and gender discrimination function in society.
- In other words, it is a combination that is best understood by **both/and**, rather than **either/or**.

CRENSHAW AND INTERSECTIONALITY
